

Cardboard packaging small

A label has to be attached on each 1,20 meter long side of the pallet, in the left lower corner.

These labels apply to the entire bundle. They must be attached in each case in a distance of 100 millimeters of the left edge and 180 millimeters of the soil.

Only one batch per pallet is allowed. Small parts are an exception. For further information please see the technical delivery specification "5-E004-01 §3".
